### PROHIBITED AND NOT ACCEPTED AT ANY SITES

- ✗ Hot Ash, Liquid Waste, Chemicals, Poisons, Unwashed Chemical Containers

## LEVY INFORMATION

Council is required to pay **\$126.50** per tonne of waste that goes to landfill to the Queensland Government. The Queensland Government reimburses this charge for waste generated by domestic users, effectively restricting the levy to commercial waste only. Where applicable, the Queensland Waste Levy is applied in **addition** to the Council fees and charges listed. Recyclables that do not end up in landfill, such as green waste, will not be levied.

## USAGE REQUIREMENTS

From 1 July 2019, legislation requires residents using Council's waste facilities to:

- Have their registration recorded.
- Show proof (photo ID) of residency within the Lockyer Valley region. Fees and charges apply to non-residents.
- Commercial operators are not required to show identification. Commercial fees apply.
- Declare the type(s) and quantity of waste being delivered.
- Verify the nature of the waste (domestic or commercial).

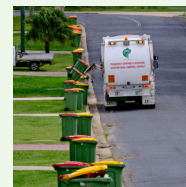

## WHAT IS RECYCLABLE?

- Metal, steel and aluminium cans
- Hard plastic bottles and containers
- Glass jars and bottles
- Cardboard and paper
- Motor Oil (max 20L) and car batteries
- Green waste
- Concrete (uncontaminated)
- Electronic Waste

## SORT AND \$AVE

Separate recyclable, reusable and recoverable items before you start loading your vehicle. Keeping these separate from general waste will make it safer and easier to unload when you get to the site and can also save you waste disposal fees. Customers are only charged a fee for waste that they dispose of. Dropping off acceptable reusable, recyclable or recoverable items is **FREE**.

Sort your waste and save!
